PROFESSIONAL EXPERIENCE

Software Development intern
Prodigy InfoTech   *Oct'23-Nov'23 (Remote)*

Roles/responsibilities:
- Writing, debugging & maintaining code. Documenting code changes, updates & new features.
- Using version control systems like Git & Github to manage codebase changes and branches
- Assisting in the design and architecture of software systems, components, and modules.
- Creating technical documentation, such as user manuals, API documentation and guides.
- Collaborating with experienced developers to optimize code for performance, scalability, and efficiency. Gaining proficiency in using development tools, IDE's and SDK's.

Web Development intern
Octanet Software Services   *Sept'23-Oct'23 (Remote)*

Roles/responsibilities:
- Using markup languages like HTML to create user-friendly web pages.
- Designing & building responsive and mobile-friendly websites optimized for different devices and browsers.
- Maintaining, and improving the website and optimizing applications for maximum speed & scalability
- Developing websites which include the development of HTML/CSS and web pages based on wireframes and visual designs, and implementation of commercial & open source web technologies.
- Developing dynamic and engaging web functionality and e-Commerce using JavaScript.

PROJECTS

Personal Portfolio Website | HTML, CSS, JS
- Designed and coded a personal portfolio website showcasing my skills, projects, and achievements, providing a professional online presence to potential employers and collaborators.

Weather App | HTML, CSS, JS
- A sleek and interactive weather app that provides real-time weather updates with a user-friendly interface.

Hotel Management System | Python
- A comprehensive hotel management system implemented using Python for efficient hotel operations and guest management.
